

Tree Service Contractors

Below is a list of contractors who have provided services to FUAO owners in the removal, trimming and maintenance of trees. The list is intended to be informative only. The Board is not recommending any specific company.

We do recommend that you get estimates from more than one provider as prices and equipment may differ considerably. Several use climbers for large trees, others have robotic equipment operated from the ground. Several companies have certified arborists on their staff.

Antietam Tree and Turf

301-791-3500
